EUROPEAN CHAPTER invites...

Workshop for anyone leading a group, a class, or a team

Scribble and scrawl?

Or

The Art of Visualization in groups.

Do you know this: flip chart pages with scribbles all over, which no one can file, let alone understand by the end of a workshop or a meeting? We can do better than that. You can give an additional polish to content, results and information by learning to record these on a flip chart in an attractive, understandable way.

The EU Chapter of IASWG inc. International Association for Social Work with Groups, in corporation with the Ausbildungsverbund Mönchengladbach (training association Mönchengladbach), invites you to attend a creative and rewarding workshop.

We will create, draw and paint by our owns to secure that you will enrich your daily business with a better visualization.

EUROPEAN CHAPTER invites…
